About Me

I am a motivated and detail-oriented Software Engineer with a strong foundation in software development principles and problem-solving.

Skilled in designing, developing, and maintaining applications, I have experience working with modern programming languages, frameworks, and databases.

As a Software Development Instructor, I teach programming and software development concepts, sharing knowledge with students and guiding them through practical projects.

Additionally, I develop mobile applications using the Flutter framework. Passionate about learning new technologies, building innovative solutions, and fostering collaboration, I thrive in environments where I can tackle complex challenges to deliver efficient and reliable software.

Experiance

House Rental Management System

Developed a web application using ASP.NET Core MVC, C#, and SQL Server that allows landlords and tenants to manage property listings, profiles, and secure authentication.
